Engineering and Science Division

The Engineering and Science Division is dedicated to preparing students for success beyond Rose State College. The Division consists of innovative, nurturing faculty who strive to deliver quality courses that prepare students with the skills and knowledge necessary for academic transfer to other institutions and/or to enter the job market. The adjunct professors are an integral part of the division and bring work-related experiences, technological skills, applications, and innovative approaches to education into the classroom.

Openings for Adjunct Professor(s) may be available in the following areas of study:
Biological Science
Chemistry
Engineering
Environmental Science
Geosciences
Human Physiology
Mathematics
Physics
Pre-Nursing
Pre-Pharmacy
Pre-Professional Health Care
Applied Technology
Environmental Technology

Minimum Qualifications:
Generally a master’s degree in the teaching discipline or a master’s degree with a minimum of 18 graduate hours in the discipline and two years college teaching experience.

Contact Information:
To apply to become an Adjunct Professor at Rose State College, your community college of choice, please submit an application for employment through the Human Resources office. Additional information about adjunct opportunities in the Humanities Division may be obtained by contacting:

Mr. Robert Hogue
