To Whom It May Concern:

Rose State College's Cyber Security program has been an active member of the Cyber Security Education Consortium (CSEC) since its conception in 2002. The CSEC is based in Oklahoma and has served as an Advanced Technological Education (ATE) Regional Center in the National Science Foundation (NSF) consisting of seven states.

Rose State College prepares students and employees for entry-level employment, career advancement, and customized education in Cyber Security. Rose State College was the first and currently the only community college in the nation to offer all six National Training Standard for System Administration in Information Systems Security certificates (NSTISSI 4011-4016). Rose State College helps to provide an understanding of upcoming technologies such as wireless, biometrics, remote access, secure coding, mobile devices, and digital forensics.

Jackson Hewitt Tax Service provides services to individuals and families across the United States. Electronically transmitting personal and confidential information to partnering financial institutions in addition to Federal and State Agencies. There exists a great need to provide security and privacy of this information to our clients, vendors, and agencies.

We would like to encourage you to consider allowing Rose State College to offer a Bachelor in Technology in Digital Forensics. There is definitely a need for this to occur to develop and maintain a competent workforce.

Sincerely,
