November 5, 2009

To Whom It May Concern:

Rose State College prepares students and employees for employment, career advancement, and customized education in Cyber Security. Rose State was the first and only community college in the nation to offer all six National Training Standard for System Administration in Information Systems Security certificates (NSTISSI-4011-2016). The college provides an understanding of new technologies such as wireless, biometrics, remote access, secure coding, mobile devices and digital forensics investigations.

Griffin Communications L.L.C. owns and operates television stations NEWS9 (KOTV) in Oklahoma City and The News on 6 (KOTV) in Tulsa, Oklahoma. The stations, both CBS affiliates, cover about 75 percent of the state, reaching more than 1.1 million households. The stations partner to produce political forums and other statewide projects and are individually rated among the top CBS affiliates in the country.

Griffin Communications, L.L.C. also owns a statewide radio network, Radio Oklahoma Network, providing news, sports, weather and other programming to 32 radio affiliates across the state.

Another business, Griffin New Media, is focused on the growth of Internet sites and mobile information distribution. News9.com and NewsOn6.com, the sites associated with News 9 and The News on 6, are each dominant media websites in their respective markets. Griffin also has a recent addition of a dedicated sports web site, OKBlitz.com.

With so many data critical businesses our need to protect digital data is crucial. The need for digital security specialists will undoubtedly be indispensable in the future.

Griffin Communications L.L.C. would like to encourage you to consider allowing Rose State College to offer a Bachelor in Technology (B.I.) in Digital Forensics.

Sincerely,

[Signature]
